- **Discuss future projects and initiatives.**

## **MEETING MINUTES**

The following points were raised:

- The President raised three main points :
  - *Collaborating more closely with faculty* : Emphasize on collaboration and make sure to deal with complaints in an embedded way, so that we prioritize preventing them instead of solving them.
  - *Dealing with the different segments at AUI* : The president split the students into three segments.
    - Students doing well in all aspects.
    - Good/Average.
    - Struggling.
      - In terms of opportunities, we need to take the good/average students into the higher segments, as well as the struggling ones. The struggling segments has to be tackled with the opportunities and chances they get to help them as they are the priority.
  - *Priority* : We need to know if a problem is worth the attention or not.
    - Example of dining : Always complained about, but is it really bad ?
