

Student Government Association

Date: Friday, February 7th 2020
Time: 11:10 am – 11:30 am.
Venue: **Building 12**

Attendance

Hiba Benkhraba, Reda El Makroum, Mr. Brahim Akrouf

MEETING OBJECTIVE

- **Discuss Suggestions about Vans**
- **Go on a Tour to pinpoint Van Stops**

MEETING MINUTES

- **We proposed a clearer and more colourful redesign for the schedule. Which Mr. Akrouf was willing to adopt.**
- **We suggested new time slots for pickups from building 18, Mr. Akrouf will study their feasibility along with his adjoints and get back to us.**
- **Inconsistencies in the schedule were also raised during the meeting. Mr. Akrouf assured us that he will look into them.**
- **We also raised the issue of lack of van tickets. Mr. Akrouf assured us that ticket stock is available. He even called the business office directly confirming that indeed the stock is there. The issue is in the hands of the Campus Store not supplying them.**
- **Mr. Akrouf raised an important point regarding latency of vans. He emphasized on how the times in the schedule are for optimal circumstances in Ifrane. Delays are very likely to happen on times when Ifrane is full of tourists, or where it is snowing.**
- **Furthermore, Mr. Akrouf made it clear that he is willing to make his private phone number available for any student to directly call him if any van driver is not performing his tasks properly.**
- **We finally went on a tour to pinpoint van stops, we have recorded details on these stops. These details will be written on the new van schedule to help students easily identify where they will be dropped off.**
